## EUREKA SHATTERED BY EARTHQUAKE RECLAMATION SERVICE MAN FOR HERE

### RECLAMATION MAN COMING

Governor Frear received a lengthy communication from Secretary of the Interior Garfield yesterday by the Siberia, and the first results of the trip of the strenuous Secretary are now known.

Secretary Garfield states that Mr. Newell, Chief of the Reclamation Service, will in all probability be here in September, and will look over the various islands. This may bear also on the plan to have a hydrographic survey of the islands made, according to Governor Frear.

Secretary Garfield met Mr. Newell in San Francisco, and they planned to go over the ground of the Western States together, studying the various situations to be met and overcome in the matter of the reclamation of land, and at this time Mr. Garfield took up the matter of the reclamation of waste lands in Hawaii with him.

The Interior Department has to have a mooted question settled before any real reclamation work can go on here. It has already been decided that Hawaii cannot benefit under the present appropriation for such work, but the question as to the legality of Mr. Newell's spending a part of it on similar trips to the one he will make in Hawaii was settled when he went to Panama, and did considerable good there.

The visit of Mr. Newell to Hawaii is of vast importance to the Territory. If an appropriation can be secured for the reclamation of waste and barren lands here, Mr. Newell is the man who can most likely secure it. According to the tenor of the Governor's remarks this morning, it was also probable that a hydrographic survey of the islands might be had.

### Another Japanese Would Be Citizen

Can a Japanese become an American citizen? Can a Japanese who has taken out his declaration of intention papers become a citizen of the United States of America?

This is the question which Gus Murphy, clerk of the United States District Court, ran up against this morning when Masakichi Suzuki, a full-blooded son of Nippon, asked that he be given papers of citizenship. He has papers declaring his intention of becoming a citizen of the United States, which were taken out before the clerk of the Circuit Court of the United States in the Southern District of New York, and he claims that he has lived up to the stipulations contained therein, and he should be allowed to become a citizen.

Clerk Murphy drew a long story out of the fellow, who is at present employed in this city as a carpenter by Peter High, the contractor. On the declaration of intention, which the Japanese has with him, it is stated that the applicant was born in Japan in 1849, and came to the United States, landing at San Francisco in January, 1886. According to his statement, he remained in San Francisco three years, after which he went to Seattle, where he stayed one year, then coming to Los Angeles, where he also remained three years. At the end of this time, Suzuki came to Honolulu and stayed here for twelve years, during this time working for S. C. Allen, J. M. Dowsett, and H. M. Dow.

After being in Honolulu for twelve years, Suzuki left and went to New York, arriving there about June 16, 1905. When he had been in New York eight or ten months, he states that he took out his declaration of intention papers, returning to Honolulu in January, 1908.

The intention papers have the seal of the Circuit Court impressed on them, and, according to Clerk Murphy, that almost precludes the possibility of any irregularity. But still it seems exceedingly strange that declaration papers should ever have been issued to the man because, according to the Naturalization Regulations it would be against the Constitution.

The section in the Naturalization Regulations reads as follows: "Clerks of the courts shall not receive declarations of intention or file statement, he remained in San Francisco three years, after which he went to Seattle, where he stayed one year, then coming to Los Angeles, where he also remained three years. At the end of this time, Suzuki came to Honolulu and stayed here for twelve years, during this time working for S. C. Allen, J. M. Dowsett, and H. M. Dow.

### ALOHA TEMPLE DID GOOD WORK

Noble Charles Murray  
Tells of St. Paul's  
Big Conclave

"There were but twelve Shriner Temples represented at the St. Paul conclave by special booths and Aloha Temple was one of the twelve. The others were of the largest and if I do say it Honolulu held up its end in splendid shape."

This is the view taken by Noble C. E. Murray, who, with Noble M. E. Grossman, returned from the St. Paul trip in the Siberia yesterday. Besides Grossman and Murray there were at St. Paul "Sunny Jim" McCandless, who was the official representative of the local Temple, and T. H. Petrie.

"Our booth was an attractive one in among the largest Temples of the country and it was one of the most popular to say the least. Sometimes the people were lined up in front of our booth waiting for it to open in the morning. Our souvenirs went like hot cakes. The leis, or 'ropes' as the easterners called them, were very popular. One man said he had tried for three years to get one. He was rewarded this year."

"We had a man and woman dishing out Kona coffee and pineapples, and the demand was always up to the supply. The people spoke particularly of the pineapples."

"The eight hundred souvenir Shriner heads disappeared in a very short time. These were of course given to the official representatives. And the seed leis and fans and souvenirs of that character were given to friends who showed us special courtesies."

"It was a fine time, and everybody had something pleasant to say of the Honolulu boys—memories from the Los Angeles conclave. The patrol drills were fully up to that standard and judging from some of the movement a few pointers were taken from our boys who drilled last year."

"There is no doubt that Shriner crowds know that Honolulu is on the map. We distributed literature and everything we had, and besides having a good time did good work for the islands. Petrie will be back on the Larline and I think McCandless will be here the latter part of the month."

### KAHULUI MAY HAVE RESERVOIR

J. N. S. Williams of Kahului was an important caller on the Superintendent of Public Works this morning. The chief topic of conversation between the two concerned Kahului wharves, Kahului fire protection, and Kahului harbor lines. Along the line of the former Mr. Campbell gave a

### Say Prices Is Too High

Governor Frear received a letter this afternoon from Manager Fairchild of the Mahee Sugar Company in connection with the Kapa land leases. The gist of it is that the Mahee Sugar Company considers the price put upon the lands by the Territory to be too high. Evidently after conference with Col. Spalding, the colonel has remarked, "If anyone else wants the lands at that figure let them have them. It is too high for me."

### Trent and Bush Next

Two members of the new Promotion Committee, which is to be seated at the annual meeting to be held Thursday afternoon, have been appointed, from the Merchants' Association. These men are G. F. Bush of the Honolulu Iron Works and E. H. Trent of Trent & Co., who will succeed Lucas and E. L. Waldron. The men to be appointed by the Chamber of Commerce will be fixed on tomorrow at the annual meeting of that body.

W. E. Brown, the present treasurer of the committee, will not serve again.

In fact, it looks like a new committee all around.

Mr. Waldron has served for three years. He said this morning: "It seems better that a change should be made in the personnel of the committee, as a little new thought, no matter how acceptable the work of the present committee, is always desirable."

At the meeting of the Chamber of Commerce to be held tomorrow, the officers for the ensuing year will be selected. Messrs. Dowsett, Dennison and Albert Waterhouse have been appointed a nominating committee to report tomorrow.

Jas. F. Morgan, president of the body for the year past, in spoken of for a new term, and seems to be the man probably to go into the office.

He is spoken of as a favorite candidate by many of the members, from the fact that his work during the past year has been found very good, and he has made a bit with a good many of the men who are doing the actual work for the Chamber of Commerce.

The Manuka was sighted off Koko Head shortly before 3 o'clock this afternoon.

### TO INVESTIGATE LABOR RAKE-OFF

Territorial Grand Jury  
May Look Into  
Leprosarium

The matter of the alleged graft at the United States Leprosarium at Molokai will be put before the Territorial Grand Jury, when it convenes next on the first Tuesday in September. This was so stated by Judge Robinson, who has charge of the investigating and inquisitorial body, this morning.

The City Mill Company, a local Chinese concern, receives 25 cents per day from certain Chinese laborers it furnishes to work on the Leprosarium, and as the men employed there are in the main, furnished by this company, the percentage is considerable. Some discussion and difference of opinion was heard as to whether the Territorial Grand Jury had the right to take this matter in hand, but Judge Robinson stated that, under the circumstances, he thought there would be no question.

No written complaint will be made to the Grand Jury, but Judge Robinson said that he would speak to the inquisitors and let them take any action that they saw fit.

The foreman of the new Grand Jury has not yet been appointed by Judge Robinson. In speaking of this matter, he paid a high compliment to Link McCandless, than whom, he said, there had never been a better foreman.

### NO LEAGUE MEETING

A quorum failed to show up at the meeting of the Honolulu Baseball League this noon, so the meeting had to be specially called for tomorrow.

**SUGAR**

SAN FRANCISCO, Calif., Aug. 17. SUGAR: Beets, 88 analysis, 10s. Parity, 4.11 cents. Previous quotation, 10s. 3/4d.

Colonel M. P. Maus takes over command of department of California.

### POLICE RESCUE TWO GAMBLERS FROM BAY

Four Japanese, named Sawa, Watabe, Koshiwa and Honda, and a Native, who were caught gambling on the Mikahala early last evening by Chief of Detectives Kakakela and some of his men, led the sleuths a merry chase, plunging into the water to escape, and two being captured only after a blockade and a long search, which developed some fancy diving and searchlight work. The police were an hour in getting two Japs out of the water, and the Native either got away or drowned completely. His identity is not known.

The five were having a quiet game (Continued on Page 2)

### Earth Crack Is Found

EUREKA, Calif., Aug. 18.—Three earthquake shocks were experienced here this morning. The earth vibrations caused much damage and for a time a great state of excitement prevailed. Chimneys were prostrated, glass was broken, and much damage of this character done in the residential and business sections. The walls of the court-house and Public Library were cracked. A fissure in the earth has been found north of the town.

Eureka is about 200 miles north of San Francisco and was considerably shaken up during the big San Francisco earthquake of two years ago.

### Sherman Notified

UTICA, N. Y., Aug. 18.—Senator Burrows and other members of the official notification committee assembled here today and formally announced to Congressman Sherman his nomination as Vice President on the Republican ticket. Secretary Root and prominent leaders of the party were among the speakers.

**INVITE ROOSEVELT TO MANILA**

MANILA, P. I., Aug. 18.—President Roosevelt will be invited to visit the city and the Philippines.

**COLORADO WILL NOT COME**

WASHINGTON, D. C., Aug. 18.—The cruiser Colorado, which recently went ashore and suffered some damage, is expected to join the Pacific Fleet on its return from Honolulu and Samoa.

**CELEBRATE EVANS' 62ND BIRTHDAY**

LAKE MOHONK, N. Y., Aug. 18.—The birthday of Admiral Evans, which marks his retirement from active service in the Navy, will be celebrated here tonight. Evans was born August 18, 1846.

### Mahukona Landing Stirs Up Kohala

Petitions and counter-petitions have been piling in on Superintendent of Public Works Marston Campbell with regard to the wharf landing at Mahukona, which is owned by the Hawaii Railway Company. A short time ago a petition asking that the landing be made a public one, and harshly condemning the present method of handling things under the railway management, came to Mr. Campbell, and it was published in the papers.

As a result, two more petitions, or rather counter-petitions, have been received. Mr. Campbell stated that

he would now make a thorough investigation of all conditions there.

One of the appeals has come direct to the Bulletin office and reads as follows: AN EARNEST AND AFFECTING WAIL TO THE PUBLIC WORKS DEPARTMENT

Dear Sir:—

Excuse the stir that we're about to make. But quickly come to our relief—Oh, do, for goodness sake. Some awful folks who're fond of
